

Form N°15 - Instructions for using the ejaculate-collecting device at the laboratory

1

Required equipment:
1 Funnel **(a)**
1 Collection tube **(b)**

2

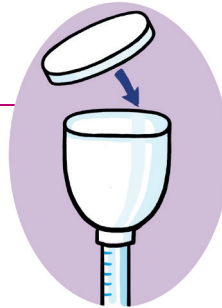

Wash hands and penis thoroughly with soap and water, rinse well and dry.

3

Remove the cover and ejaculate into the funnel.

4

Close with the cover.

5

Bring the tube containing the ejaculate to the laboratory or let it into the cabin and inform you are leaving.
